Electronic Start System

Starting Official Instructions

Work with the Computer Operator to make sure that the Dolphin Starter and Watches have been properly set up for your meet, following the Hardware Set Up Instructions.

*NOTE: The Dolphin Starter must be connected to the electronic start system's **Timer Start** or **Start Output** jack. Connection to any other jack **will** damage the Dolphin Starter.*

1. Use the electronic start system to start the race. The start time will be sent wirelessly from the Dolphin Starter to the Lane Watches, starting them.

2. After the race, press Start/Stop and then Reset on the Dolphin Starter to reset the system for the next race. (At Reset, the Dolphin software will write a result file on the computer for access by meet management software.)

Synchronized Start/Manual Stop

Starting Official Instructions

Work with the Computer Operator to make sure that the Dolphin Starter and Watches have been properly set up for your meet, following the Hardware Set Up Instructions.

1. Press Start/Stop on the Dolphin Starter simultaneously with the start signal for the swimmers. The start time will be sent wirelessly from the Dolphin Starter to the Lane Watches, starting them.

2. After the last swimmer touches the wall, press Start/Stop on the Starter, and then Reset. You are now ready for the next race. (At Reset, the Dolphin software will write a result file on the computer for access by meet management software.)
